

## **Behind Enemy Lines: Stainland CC**

**By Dominic Kureen**

Andy Ingle of Stainland took some time away from his busy preparation for the 2007 season to give his views on Copley CC and his memories of past encounters with the side.

**What are your main memories of past matches between Stainland and Copley?**  
**Getting beaten every time that I've played against them!**

**If you could take any one player from Copley's current side and add them to Stainland CC then who would it be?**  
**Richard Thorpe, a fantastic all-round player.**

**How would you say Copley CC is perceived by Stainland players?**  
**In recent years Stainland haven't really played against Copley often enough to build up any kind of relationship between the two clubs.**

**What positions do you think Copley and Stainland will finish in the Halifax League in 2007?**  
**Copley will probably finish second or third in the first division and we will probably finish somewhere around mid-table in the third.**

**When the fixtures for the season are announced, how highly would you say Copley figure in terms of matches that your players are looking forward to?**  
**Unfortunately we won't be playing Copley in the league this season.**

**In terms of Stainland CC's rivals, how high up the list would you put Copley?**  
**At this point due to being in different divisions there is no rivalry between the two sides.**

**If you had to choose victory over Copley in the Parish Cup final or victory over Copley to win the Halifax League which would you rather happened?**

Winning the Parish Cup final.

**Can you think of any players that have played for both Copley and Stainland?**

In recent years only the Spencers as far as I can remember.

**And finally, in terms of Halifax League cricket grounds, how impressed are you with Copley's ground?**

I'm very impressed. It's probably one of the best grounds in the Halifax League and would be even better without the midges.
