

# GOOD RELATIONSHIPS

## David Armitage on the club's location

Our isolated location means we don't suffer too much from vandalism. We've had a couple of minor break-ins but to be honest it's a big effort to get up here – so that is an advantage for us!

We have a good relationship with the neighbours round about. They're not active members of the club but they do come to some of our social events.

I think we'd like to see Stones as an ambitious club. We've got strength in depth in our juniors and this stands us in good stead. The senior teams just need to be more consistent and move up a division!
