30th June 2004.

Ref Cricket League History Project.

I was passed your letter at a recent meeting of the Cricket committee and asked if I would respond to you as I have a number of items of memorabilia from the club.

You may not know that the club moved last year from its ground at Clifton Road to a new site here at Russell way, however we have tried to bring with us as much of the history of the club as possible, i.e. the stone wall from the main road and around the bowling greens was brought from the old club. Carved corner stones from the Pavilion and commemorative stones from the scoreboard were recovered from the site by the contractors for us.

In 1934 club member Mr. Harry Marsden presented the club with a ledger that records all our matches from May 24th 1873 to 12th September 1931 with averages and list of officials to match. Another member Mr. Keith French took on the task of bring this forward and succeeded in taking the information to 1945 before fatigue set in.

With minute books and scorebooks we can make available I feel we can contribute to your task. If you should wish to see the information we have please e-mail suggesting an evening when you might be available and I will arrange to be there or offer an alternative.

Best regards

Peter Bradley.
