

# MIDGES AND MOTORBOATS

## Wendy Kitchen on Walton Street

It's lovely watching cricket at Walton Street. You can sit by the river and get pestered by all the midges that congregate near the pavilion! It's a lovely ground and lovely club.

But obviously the river is a problem in terms of losing balls. Brian Lawrence used to jump in the river and fetch balls. We used to have a motorboat!

Surrounding the ground are individual factory units. There's also a car park and a wooded area that leads up to Sowerby and then Luddendenfoot and Hebden Bridge. I walk my dogs up there!
