

# LABOUR OF LOVE

## Michelle Oates on friends and cricket

It's just a part of my life, a labour of love. I've got a husband and children who play here so I spend a lot of time here. You just follow them around. You go with it or you spend a lot of time on your own!

I don't mind helping out but I don't want to do it every week. We're lucky if we get a thank you in the speeches at the annual dinner!

It's a very sociable thing too. It's always nice to see friends who are passing through.

I'm not the kind of person who could spend a whole day at a cricket match – unless the weather was very good! I like chatting to friends and it's always good if there's an exciting finish.
