

# WEATHER AND DRAINAGE

## Bob Edinburgh on the local climate

We get extremes of weather at Cartworth Moor – it comes straight off Holme Moss.

We're lucky in that the ground drains very well, unlike grounds that lie in the valley bottom.

Stuart Clayton and Brian Hinchcliffe are our groundsmen. And Peter Holling, our ex-secretary, still plays in the 2<sup>nd</sup> XI.

The club shuts down during the winter. We don't have any contact with the other sports club nearby, Cartworth Moor FC. There's no real overlap in players or relationship. I think we just share a bit of equipment.

We miss having a local pub. The Rising Sun burnt down before I got involved here. It used to be a base for the club and also supplied us with some additional spectators.
