

YOU GET USED TO IT!

Dennis Baldwin on the nearby M62

Being the groundsman here is a nice job. The club would be bankrupt if it had to pay me! But it's a tranquil setting and I enjoy doing what I do. When the sun turns the nearby trees gold it looks a really pretty picture.

The M62 traffic is a constant buzz but you get used to it after a while. I think visiting teams are more conscious of it than us. We actually planted some trees on the motorway side of the ground to try and deaden the noise.

We lost a corner of the ground when the M62 came. The clubhouse was on the other side of the ground in that era.
