

# SHIELD DATE

## Nicola Sutcliffe on Swift Cross

Swift Cross is definitely one of the colder venues in the area. It always feels apart from the normal world – it's an enjoyable place to come with some great characters!

Hosting the Crossley Shield final is a major thing for the club this year. We've set up a sub-committee and I'm going to be involved on the food and drinks side. We're also just about to sort out the menus. I think there'll be lots of meats and fish.

It's a good opportunity to impress the league. As we keep hearing, it's as much the hospitality and the catering that people will remember the final for as the match itself.
