

BUILDING BLOCKS

Steve Brierley on the dressing rooms and tea room

The hut we now use for changing came from Outlane CC. They were getting rid of it and said we could have it – as long as we bought a few tickets for a fundraising sportsman's dinner they were holding! So we were more than happy to do that.

The hut we now use for teas also has an interesting history. We got it from the Ainleys Estate in Elland. It had been damaged in a fire and was advertised as being free to a good home. In fact in the first few months we could still smell the fire on it!

But we brought it to the ground. We had to park it near the main entrance – rather than on the other side – and it's been good value.

The two huts need a little bit of repair but they've served us very well. Roco Truck Bodies sponsor the two buildings – and we're very grateful for their support. We also got our garage off them – we put all our mowing and ground maintenance equipment in there. It's packed with stuff.

We have a new blue cabin that the scorers sit in. We bought it for £50 off a road haulage company – and it's sound as a pound.
