

NEW VERANDA

Marie Beaumont on her favourite spot

It's often very windy at our ground! We like to sit in front of the pavilion on the new veranda (below). We've recently put this up and it's been a good thing.

We have plans to extend the pavilion – and Marshalls are involved in this too.

We've also been in negotiations with Marshalls to buy the ground off them. Leases have been fine but there is nothing like owning your own ground on a permanent basis.
