

BIG PLAYING AREA

Geoff Manger on the club's ground

Broomfield Avenue hasn't changed much over the years. The playing area is the same size – it must be one of the biggest in the league. In fact I would say it's county standard in terms of size.

We built the scoreboard. We had to get special planning permission for this. And we had to build some trees to 'cover' the new box. Which was fine – but when the new houses were built next door to the ground they didn't have to put any trees in!

Over the years the wicket has got better. The clubhouse comprises changing rooms and tea area – and in the distance you can see Copley Woods.
