

CLOSE TO THE ACTION

Malcolm Clegg on the club's ground

I love the ground here because, as a spectator, you feel so close to the action. You're almost involved in the game yourself! As such, it's a great atmosphere.

I'd say it's also a pretty and picturesque ground. But it's not big in terms of the size of the playing area. It's quite narrow. Pity spin bowlers who play here – it's tough for them! Some teams can score 400 on this ground, but we also get our fair share of low scores.

The trees that surround the ground are lovely: they're sycamore, ash, poplar. But we had to have the horse chestnuts pulled down because they were dangerous.

We have barbeques here when the weather is right!
