

VERANDA AND NETS

Trevor Crosland on the ground

We've just built a veranda on the club pavilion. We like it a lot! We now want a two-lane practice area. We've got £10,000 but we need £20,000.

We have a mobile phone mast at the ground, which nets us £4,000 a year. It's not in the way at all so it's definitely worth it.

It is a very exposed and windy venue. It's high as well, so it's quite tough to play here. But we've got great views – as far as Bradford in one direction!
