

# NOISY MOTORWAY

## Trevor Crosland on the nature of the club

The club owes a debt of gratitude to the Wappy Spring pub. They gave us the land for the ground we have now. Bill Ainley was the man who made the donation.

The M62 is obviously a major issue here. Opposition players talk about the noise but we don't notice it – we just get used to it! The trees have certainly helped to lessen the noise.

Outlane is a family club – the Pettingers are a good example of another family who have become very involved at the club.
