

GOOD SET OF LADS!

Dougie Thorpe on the club

The club has a good committee – about a dozen strong but they're not players. There aren't as many people involved as there once were. The club isn't really a social club because the place is so isolated.

They are a good set of lads up here – but they're a bit used to losing! Lads today: they're not keen enough in my opinion. In my day we were very dedicated. Losing used to hurt.

I'm going on 83 but I've not retired yet. I've always got my kit in the car – just in case I'm required!
