

# CLOUDS AND RAIN

## Dougie Thorpe on the weather at Gill Lane

You get to know the weather up here – the clouds and the rain. Sometimes it gets so cold you need three sweaters and long johns! It is very exposed. And when it's cold, your hands can go red and blue!

It snows up here also – we come off for that! And it can get very windy – yes!

But on a good day it's beautiful. It's great – there's nowhere better. But we don't get many spectators, just the odd hiker.
