

SPENDING MONEY

Mick Baldwin on the ground

It's a high-scoring ground, although not one of the biggest. We've spent a lot of money on the square and it's paid off: the outfield is quick and it's a good wicket to bat on.

We have 10 wickets on the square. The reality is that an awful lot of cricket is played here, so we have to have plenty of tracks.

In yesteryear the changing rooms were in the bottom corner of the ground, not where they are now. There's a farmer's field just beyond the far boundary.
