

TAKING THE CLUB SOMEWHERE

Ronnie Ellis on the club committee

In my time I've been club secretary, treasurer and chairman. I've always been involved and I've wanted to help the club in any way I can. My message has always been: it has got to believe in itself more!

I joined the committee in November 1971 and was involved on the social side. I'd been born in Bradford but I'd spent some time away in Lancashire prior to this.

Around the time the clubhouse was extended I worked closely with Fred Jones and his wife. They lived in Drighlington and together we set out to take the club somewhere! The club was at a low ebb then but we've had great successes since.
