

MOVING THE SCOREBOX

Derek Pickford on the club buildings

We have moved the scorebox recently. Everybody wanted it closer to the clubhouse, particularly the scorers themselves who wanted to be closer to the tea room and the toilets! I think it's also a bit warmer for them being closer to the other buildings.

The clubhouse, which houses the tea room, has been here for 40 years – maybe a little bit more. We redeveloped it recently.

We have plans for a new clubhouse. They're being masterminded by John – John Locke Builders Merchants – who plays for us. It's a long-term project and will involve lots of fundraising. We'll do the whole job ourselves because we have lots of tradesmen at the club.
