

# THE START OF THINGS

## John Bleazard on the Lord's trip

I've been at the club for about 23 years. I suppose the outstanding event in our recent history was the trip to Lord's for the village championship final.

We played Ynysygerwn from South Wales in 1979. It put us on the map and after that we started winning things. It was a small competition but we got some national coverage and it felt good.

The 1980s were the start of things. And I think that in retrospect the Lord's trip set us on the road to fame.
